

# How to do your 8 times tables.

This is an octagon -an eight-sided shape- if you times 8 you always double 3 times.

Here is Ollie the octopus, let's count his tentacles together.

1 2 3 4 5 6 7 8!

An octopus has 8 legs! Now let's count them 2 times. 1 2 3 4 5 6 7 8. Now we are going to carry on. 9 10 11 12 13 14 15 16! So- 2 octopuses equal 16 tentacles.
